Summary of Preproposal Conference - April 19, 1999  
Point-of-Service (POS)  
**Solicitation No. F10R9000121**

The Preproposal Conference commenced at 1:05 p.m.

1. Opening Statement - Diane Bell, Director of Operations, Employee Benefits
  1. Introduction: Diane Bell introduced: Jake Pyzik, Director, Fiscal Management, Employee Benefits; Joel Leberknight, Procurement Officer, Department of Budget and Management; and Keith Weaver, Consultant with the Segal Company.
  2. Submitted written questions will be read and answered during the preproposal conference.
  3. Verbal questions will be entertained.
  4. Questions which cannot be answered during the conference will be researched and a response will be included in this summary.
  5. Conference Reporting Services is transcribing the preproposal conference.
- II Overview of Procurement Process
- X Mr. Joel Leberknight, Procurement Officer, DBM, gave a brief overview of the procurement process and reported as follows:
  - Notice to Offerors - Vendors who do not intend to submit proposals are asked to submit this notice with comments. This notice assists the State in improving the quality of State proposal solicitations and to make the procurement process more user-friendly and more responsive.
  - S Section 1.1 - Summary Statement - The Department intends to award contracts to no more than three (3) Point-of-Service vendors to provide health insurance benefits for state members and dependents.
  - Section 1.3 - Issuing Office and Procurement Officer - reiterated that the sole point of contact for this RFP is Ms. Gladys Gaskins, Employee Benefits Division, 301 West Preston Street, Room 509, Baltimore, Maryland. Questions should be directed to the

issuing office. Wherever Procurement Officer is referenced in the RFP that would be Mr. Joel Leberknight.

- S Section 1.4 - Preproposal Conference - highlighted that the preproposal conference was being transcribed by Conference Reporting Service. Offerors wishing to obtain a copy of the transcript may contact the transcribing company directly at (410) 768-5918. Vendors who were present at the preproposal conference and signed the transcription request sheet will be mailed a copy of the transcript of the preproposal conference. This request sheet was given to the transcribing company.

All vendors known to have received a copy of the RFP will also be sent a summary of the preproposal conference, which is not verbatim, any amendments to the RFP, a copy of the attendance sheet and responses to written questions submitted.

- Encouraged offerors to submit written questions (can be faxed) as early as possible. Questions will be answered based on the availability of the Procurement Officer=s time to research and communicate an answer.
- Section 1.5 - Proposal Due Date - The State has a very rigid policy on the timely submission of proposals. The proposals are due to the Issuing Office, specified in the RFP, no later than May 6 at 1:00 p.m. No proposals will be accepted after the due date/time specified in the RFP, unless it is through the fault of the State that the proposal was not received timely.
- S Section 1.7 - Revisions to the RFP - Any amendments or revisions to the RFP will be sent to all potential offerors known to have received a copy of the RFP.
- S Section 1.9 - Oral Presentation - Offerors may be requested to make individual presentations to State representatives in order to clarify their proposal. If this happens it would occur mid to late May.
- Section 1.11 - Multiple and Alternative Proposals - Multiple proposals will not be accepted. Offerors may, however, submit an alternative proposal in addition to a proposal which fully conforms to the requirements of the RFP. All proposals must be marked clearly and concisely on the outside as to whether they are the primary or alternative proposal. If you choose to also submit an alternative proposal you would submit only what differs from the primary proposal.
- S Section 1.12 - Access to Public Records Act Notice - This section is important in that once an offeror submits procurement documents, they become records in the possession of the State and are subject to disclosure under the Freedom of

Information Act. Therefore, if there is information that is confidential and proprietary you must identify these sections. This information should be placed after the title page and before the Table of Contents in both the technical and financial proposals.

- Section 1.14 - Mandatory Contractual Terms - emphasized to offerors to read the terms and conditions carefully in this section. If the offeror takes exception to the terms, its proposal may be rejected. If an offeror feels it must take exception it should identify such exceptions as soon as possible in the questions to the State and ask for permissibility of such exception.
- Section 1.15 - Proposal Affidavit - This affidavit, Attachment B, must be read and signed and returned upon submission of your proposal.
- Section 1.16 - Contract Affidavit - Only the successful offeror is required to return Attachment C upon notification of contract award.
- Section 1.17 - Minority Business Enterprise - Emphasis was placed on this section. An MBE subcontract participation goal of 15 percent has been established for this procurement. The offeror is required to submit, with its response to this solicitation, a completed Certified Minority Business Enterprise Utilization and Fair Solicitation Affidavit, Attachment D-1. Emphasis is that you will make a good faith effort to achieve the goal.
- Section 1.19 - Competitive Sealed Proposals - The procurement method is competitive sealed proposals, which will be mentioned later in the summary.
- Section 1.20 - Contract Duration - The contract duration is three calendar years beginning on about August 1, 1999 to May 30, 2003. The State has the unilateral right to extend the contract for up to two additional one year terms. Potentially it could be a five year contract.
- Section 1.21 - Contract Type - The contract is a firm, fixed price contract. This means that the unit prices on the financial proposal will be firm for the duration indicated.
- Section 2 Offeror Qualifications - Offerors are required to have an Executive Summary and in that summary with the proposal, the offeror should state that they satisfy the qualifications necessary. This applies to both the primary offeror and should the offeror have any subcontractors that are used other than MBE subcontractors, they must be identified at that point. **See amendment 1.**

- S Section 3.5 - Deliverables/Delivery Schedule - Selected vendors should be prepared to follow the implementation schedule.
  - Section 3.6 - Questionnaire - The purpose of these questions is to obtain information to assist the State in its evaluation of the offeror capabilities. This section is an integral part of the evaluation criteria identified in Section 4 of the RFP.
  - S Section 4.1 - Evaluation Criteria - In evaluating proposals, the State's first priority is to maintain sufficient POS coverage across all geographic areas of the State, including meeting specific geographic coverage needs.
- Also in this section the actual evaluation criteria used to evaluate proposals listed in descending order were emphasized.
- Section 4.2 Selection Procedure - Is performed in accordance with competitive sealed proposal process.
- S The Evaluation Committee is established by the State. The Committee will read and review the technical proposal to determine whether a vendor is technically qualified to perform the duties.
  - S The Committee may bring offerors in for discussions.
  - S Only after all technical evaluations are completed, the financials are opened and reviewed for those responsible offerors judged to be reasonably susceptible of being selected for award.
  - S Offerors determined not to be reasonably susceptible will not have their financials opened.
  - S The Committee may also request best and final offers on the financial proposals.
  - S Then a determination will be made of which offerors are the most advantageous to the State. In making this determination technical merit will receive greater weight than price.
- Section 5.2 Format of the Proposal - emphasized submission of a transmittal letter and statement acknowledging receipt of any and all amendments. Proposals must be submitted in two separate volumes and must be sealed separately from financials. It was indicated in the RFP to submit an original and six copies of each volume. **There will be an amendment to indicate offerors should now submit an original and ten copies of each volume (technical and financial).**
  - Section 5.21 Volume I - Technical Proposal - It should include an Executive Summary, Offeror Qualifications, Completed Questionnaire and the Required submissions: a)

completed Proposal Affidavit, Attachment B; b) Certified Minority Business Enterprise (MBE) Affidavit, Attachment D-1; and c) Financial Statements and Annual Reports.

## II Overview

- a. Background - There will be no regionalization and the State is soliciting for no more than three (3) vendors to provide POS health insurance benefits.
- b. Closing Date - For submission of the proposals - May 6, 1999 at 1:00 p.m
- c. Contract Date - Beginning on or about August 1, 1999 and ending May 30, 2003.
- d. Statement - Concerning benefits regarding preauthorization requirements for InVitro Fertilization (IVF) on page 22 of the POS RFP. It is the State=s intent to keep the same preauthorization requirements now in existence. The following are the criteria:

*State Employees Health Benefits Program  
InVitro Fertilization (IVF) and Artificial Insemination (AI)  
Criteria*

InVitro Fertilization (IVF) and Artificial Insemination (AI) benefits are available for a married woman (in accordance with a ceremony recognized by the laws of Maryland) if she is infertile:

- 9 throughout the most recent five (5) years of marriage to the same man; or
- 9 her infertility is due to endometriosis, exposure in womb to diethylstilbestrol (DES), or blockage of or surgical removal of one or more fallopian tubes; or
- 9 male infertility is the documented diagnostic cause.

She must be enrolled in any State of Maryland health benefits plan for twelve (12) consecutive months in order to receive benefits. The patient=s oocytes must be fertilized with the patient=s spouse=s sperm. InVitro Fertilization and Artificial Insemination are covered for a maximum of three (3) attempts combined per employee per lifetime.

## IV. Questions and Answers

- Ms. Bell read the written questions submitted by vendors and their response. These written questions and responses will be enclosed with this summary.
- A vendor at the preproposal posed a question: on page 13, letter K., the amount of

contribution a vendor would pay towards the printing of the material, could you provide estimates?

**Response:** The last invoices to vendors were approximately \$10,000 - \$11,000.

S Another question addressed at the preproposal that needed clarification. On page 37, Question 50, could you define what you mean by direct pay claims?

**Response:** This question asks the offeror to describe how they pay for out-of-pocket as opposed to in-network claims.

#### V. Closing

- Ms. Bell reiterated that written questions should be submitted as early as possible. However, these questions will be answered subject to the availability of the Procurement Officer=s time to research and communicate an answer.
- A copy of the attendance sheet from the preproposal conference will given out to vendors at the conclusion of the conference. The attendance sheet will also be mailed to all vendors known to have received a copy of the RFP.

The Preproposal Conference adjourned at approximately 2:00 p.m.
